

# OPENPASS ARCHITECTURE COMMITTEE MEETING

28.03.2018

# AGENDA

- 1. Organisational matters**
- 2. Release 0.6 overview**
  - Tuleap Release Planning Card Wall**
  - GUI development (VW GoA)**
- 3. Observations/Logging – current difficulties, requirements, discussion**
- 4. DoD's for Release 0.6**
- 5. Documentation (Daimler)**
- 6. Further topics**

# ORGANISATIONAL MATTERS

- Face to Face AC meeting: 4th July in Munich (BMW)?

## Possible topics:

- Retrospective and Review of Release 0.6
- Planning Release 0.7
- Further steps regarding harmonization / prioritization
- ...
- sim@openPASS developement
  - Too little committers at the moment → goal is to improve the current situation in future releases
- Requirement refinement meetings
  - Meetings between 2 or 3 driver members and committers
  - Content of those meetings must be presented in the AC / SC meeting or communicated via AC/SC mailing list

# RELEASE 0.6 - OVERVIEW

# TULEAP RELEASE PLANNING

See Tuleap:

[https://tuleap.eclipse.org/plugins/agiledashboard/?group\\_id=114&planning\\_id=25&action=show&aid=947&pane=cardwall](https://tuleap.eclipse.org/plugins/agiledashboard/?group_id=114&planning_id=25&action=show&aid=947&pane=cardwall)

Additional Devtasks / bugs:

- C++ 17 Upgrade
- Qt Version 5.12.2 (5.12 LTS) Upgrade
- Reported GUI and simulation bugs
- a process is required how to handle bug reporting and fixing

# OBSERVATIONS / LOGGING

# REQUIREMENTS SIM@OPENPASS

- Current situation:

- **PCM use case** eliminates the ComponentObservations-Tag completely from the systemConfig (→ difference to basic use case)

- **No observation links between components and observation modules**

- **Only observations on data available through public interfaces**

- Requirements - what do we need to observe / log?

- See also [https://wiki.eclipse.org/images/0/09/20181214\\_openSource\\_AC\\_openPASS\\_ITK.pdf](https://wiki.eclipse.org/images/0/09/20181214_openSource_AC_openPASS_ITK.pdf)

- Next steps

- Requirement refinement meeting CW14/15

- Participants?

# DEFINITION OF DONE

# DEFINITION OF DONE

- All committed code is licensed under the EPL 2.0
- Coding Guidelines?
- Inline documentation is complete
- Developer documentation and user guide are complete
- >80% code coverage for unit tests
- End to End tests run successfully
- Example configs are provided for the use of new features
- ???

# DOCUMENTATION

**FURTHER TODOS**

# FURTHER OPEN TOPICS

- Installer
- Coding guidelines (Tuleap DevTasks #757)
- Jenkins (Build Server)
