# PTP 2.1 Enhancements for PE and LoadLeveler Plugins
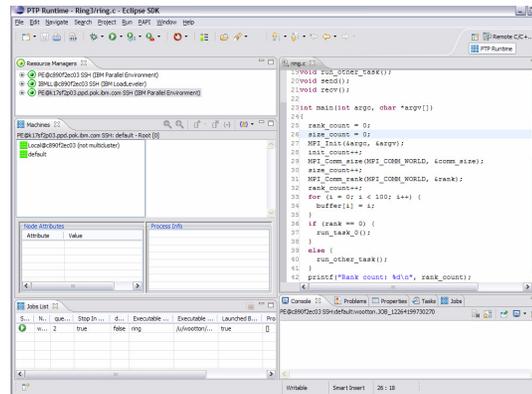

David Wootton
IBM Poughkeepsie
dwootton@us.ibm.com

PE and LoadLeveler Execution

- Execute parallel applications using IBM PE
- Submit batch jobs using IBM LoadLeveler
- Monitor execution of PE and LoadLeveler applications.

PE and LoadLeveler Execution

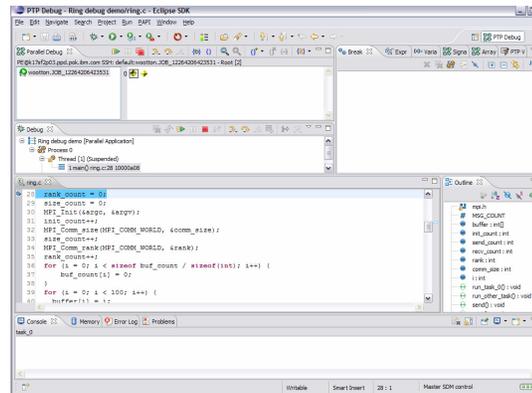

- Execute parallel applications using IBM PE
- Submit batch jobs using IBM LoadLeveler
- Monitor execution of PE and LoadLeveler applications.
- Enable remote execution environment support
- Miscellaneous bug fixes

Debug PE Applications With PTP Debugger

- **Implement support for built in PTP (SDM) SDM debugger for PE plugin**
- **Currently implemented for Linux only**
  - Requires AIX implementation of gdb
