# UI Roundtrip

# Use Case

Hide text field

Text

```
public class Button extends AbstractButton {  
    @Override  
    protected String getConfiguredLabel() {  
        return "Hide text field";  
    }  
  
    @Override  
    protected void execClickAction() throws ProcessingException {  
        getTextField().setVisible(false);  
    }  
}
```
