Current status

- Things are changing

- Refine the working group to sharpening focus is necessary

- Evaluation of some options were done

The OpenADx Steering Committee decided to wind down the Working Group

Consequences

- Results and artefacts will be archived – nothing will get lost

- In-vehicle projects shall be shifted to SDV Working Group -> to be confirmed

- "Offboard" projects (like Cloe, OpenMCx) shall be shifted to openMobility -> to be confirmed

- openMobility will be the new home for the OpenADx community
