

openPASS AC webcon - 27.06.2019

Donnerstag, 27. Juni 2019 16:35

Meeting Date: 27.06.2019 14:00

Location: Skype Meeting

Participants

-  [Das Arun, FG-410](#)
-  Daniel.Schmidt6@de.bosch.com
-  Per.Lewerenz@daimler.com

Notes

Agenda:

- 1) Discussion of the agenda for the AC meeting in Munich on July 4th:
 - Per will prepare extensions of AgentInterface and World_OSI for discussion. Also a GUI results plugin shall be prepared and discussed in AC as candidate for the next Release.
 - Discussion for Release 0.7: Proposals should be prepared and brought up by all members. Optionally the proposals can already be written down in user stories beforehand.
 - Per: Level of detail for the user stories is not yet clear. We should differentiate between models and interfaces. Changes of interfaces shall be fully described beforehand. For the development of models, the user stories do not need to be too detailed (especially as this might often not be known upfront).
 - Proposal from Daniel: Formulate a few user stories with the whole group at the AC to get used to writing user stories.

Meeting minutes can be found here: <https://wiki.eclipse.org/openPASS-WG>
