## Welcome

### → Welcome to eclipse.org

Eclipse is an open source community whose projects are focused on providing an extensible development platform and application frameworks for business. Eclipse provides extensible tools and frameworks that span the software development lifecycle, including support for modeling, language development environments, testing and performance, business intelligence, rich client applications and embedded development. A large, vibrant ecosystem of major innovative start-ups, universities and research institutions and individuals extend, complement and support the Eclipse Platform.

Find out what eclipse is all about - check out the [Eclipse Roadmap](#), [white paper](#), read some technical [articles](#), visit the [newsgroups](#), take a look at the latest [downloads](#). Don't forget to check out the [Eclipse Project FAQ](#) and [online documentation](#). You can find out about eclipse-related events, projects on the [Community](#) page.

For software licensing, website terms of use, and legal FAQs, please see our [legal stuff](#) page. Eclipse logos and graphics are found on our [logos](#) page. [IBM](#), [Intel](#), [Magma](#) and [Novell](#) for generous donations to our website infrastructure!
